

Please do not allow Indiana Telephone Privacy law to diminish. We currently few or no calls monthly.

Before the Indiana law we received between 5 and 20 solicitations per month.

This law in question is a benefit to living in the state of Indiana.

If I want more telemarketers to call me, I will move to a state without this law.

The people of the state of Indiana have worked hard to create this law for more quaility family time.

Thank You for not bothering with our Indiana laws.
